Health Services/Implementation Science Researcher
Center for Innovations in Quality, Effectiveness and Safety (IQuEST), Houston, TX

IQuEST (a collaborative center of health services research between the Michael E. DeBakey VA Medical Center and Baylor College of Medicine) is seeking a Health Services/Implementation Science Researcher to join a grant supported multidisciplinary research team that is nationally recognized for work in one of the following relevant areas:

- implementation science
- health services/systems research
- improvement science
- health information technology
- informatics
- human factors
- I/O psychology
- patient safety improvement

The applicant will be expected to contribute to the research areas of this multidisciplinary team and will be a full-time faculty member at the assistant/associate professor level depending on experience. If relevant, up to 25% of time could be used for clinical activities. Investigators with a record of successful funding will be given priority consideration. Salary will be dependent upon qualifications.

IQuEST, located in the Texas Medical Center with 35,000 sq. ft. of contiguous office space, has a strong portfolio of federally funded, multidisciplinary research. It houses over 220 staff; 60 are research faculty from either clinical and/or non-clinical disciplines, such as epidemiology, biostatistics, and psychometrics. Our research extends from patient experience, to clinical practice and outcomes of care, and to the development of health care policy. We have an established track record of supporting, mentoring and developing outstanding research leaders. Some faculty hold joint or adjunct appointments at Rice University, The University of Texas School of Biomedical Informatics and School of Public Health, University of Houston, and Texas A&M University.

A summary of all activities of our Center are available on our website:
http://www.houston.hsrd.research.va.gov

Required Qualifications:

- An MD or PhD is required
- Must be able to compete for external funding (i.e. NIH, VA, AHRQ)
- Must be a U.S. citizen or U.S. permanent resident

Interested candidates should submit a current curriculum vitae and cover letter to:

Ms. Shannon Kenyon, Chief of Operations
