Health Services/Implementation Science Researcher
Center for Innovations in Quality, Effectiveness and Safety (IQuEST), Houston, TX

IQuEST (a collaborative center of health services research between the Michael E. DeBakey VA Medical Center and Baylor College of Medicine) is seeking a Health Services/Implementation Science Researcher to join a grant supported multidisciplinary research collective conducting research on healthcare delivery that impacts policy, practice and the health of patients and populations.

The applicant will be expected to contribute to the research areas of one of three focus areas:

1. Developing and implementing pragmatic, integrated behavioral health interventions for persons with chronic medical illnesses.
2. Developing pragmatic approaches for measurement and improvement of diagnostic safety.
3. Developing new measures and novel analytic approaches for measurement of healthcare quality for improvement at the individual, facility, and population health level.

S/he will be a full time faculty member, appointment and salary commensurate with experience. Applicants with current federal funding preferred. Clinicians within the VA system preferred. If relevant, up to 50% of time could be used for clinical activities.

Visit our website: [http://www.houston.hsrdr.research.va.gov](http://www.houston.hsrdr.research.va.gov)

Required Qualifications:
- An MD or PhD is required
- Must have a record of research in a relevant area of health services research
- Must be able to compete for external funding (i.e. NIH, VA, AHRQ)
- Must be a U.S. citizen or U.S. permanent resident

Interested candidates should submit a current curriculum vitae and cover letter to:

Ms. Shannon Kenyon, Chief of Operations
